## 1988 AHCA National Specialty Field Trial — by Jan Priddy

The 1988 AHCA Specialty trial was held in what had to be the most beautiful pasture in all of Georgia! There were stately geese in the gardens we passed on the way in and the cows and horses were politely asked to keep at a distance. All around were the huge maples and pale pines, with dainty dogwoods putting on their pretty display at the edge of the woods. Standing under an ancient maple in the center of the grassy field with violets at my feet was perfection. The warm sunshine and clear fresh air contributed to the shared feeling of joyous expectation.

We had a large number of spectators, which seems to be a continuation of the past years. A typical field trial can expect a few spectators — perhaps a couple of passersby who wonder what is going on, or a novice who is anxious to learn how to slip his hound before entering. The National has generally drawn people suffering from show-burnout and in need of diversion. This year we easily saw 30 people who joined the crowd and who contributed to the festive atmosphere. There was cheering and applause for each course.

I have been asked for specific information on the winners. This is very difficult, both because of the nature of field trial judging which is competitive and does not involve individual examination of a hound, and because I can claim no particular familiarity with the hounds present (in fact, my objectivity would be hampered if I were too familiar with the hounds). General observations are

the best I can provide. There was a large entry of Afghans and while several were new to the sport the overall quality was high. The winners gave the best performances that Richard and I saw on the day. There were some fast hounds and some who could turn, hounds who watched and responded instantly to the lure with power and grace, and athletes with tremendous determination who pushed their anatomy to function at its peak capacity. There were some who did all of these things and I am grateful to have been there to see it.

I wish to thank the parent club for its support of lure coursing in sponsoring of this event, including the entrants in the show catalog, providing outstanding trophies and rosettes (and Johanna Tanner for another of her gorgeous BOB trophies). Jan Lucree ran the show and trial and my gratitude to her cannot be measured. Jan Pence (three Jans — we were entertained) served as Field Clerk and Tim Pence was a very able lure operator. Only a good lure operator can safely provoke excellence in each hound's performance so that I have something to judge! Thank you to all the Field Committee who worked so hard that day.

Over the past 15 years I have attended many parent club events, both shows and trials. I have always enjoyed myself and felt very pleased when I could offer a real service and thankful to the people who have (quite literally) *slaved* so that I could have a good

time. There have always been complaints and too often these were trivial or contradictory, seldom submitted in a useful or constructive manner. The people who *worked* wanted things to be perfect, too! I thought Atlanta was wonderful, but I am also sure that someone will find things to complain about. Therefore, confident that someone else will complain about the unhappy accidents I wish to submit some of the wonderful ones I enjoyed:

- Atlanta has more trees than any other urban area in the U.S.

- The blossoms were beautiful and plentiful (it was Blossom Festival).

- I could drink the water straight from the tap.

- The MARTA rail and bus system really is "clean, fast, and efficient".

- Marble and granite were used with graceful abandon (even the gravel was pretty).

- I never got too hot, lost, rained on, or chilled in the 11 days I was there.

- Southern hospitality is more than just a rumor — it greeted me everywhere I went.

- Atlanta is home to many cultural and historical treasures.

There was a fabulous Specialty Show, Obedience Trial, and Field Trial.. in Atlanta, Georgia in April, 1988. See you in Portland in 1989!
